Foreword

The Government of Andhra Pradesh has unleashed a new era in school education by introducing extensive curricular reforms from the academic year 2020-21. The Government has taken up curricular reforms intending to enhance the learning outcomes of the children with focus on building solid foundational learning and to build up an environment conducive for an effective teaching-learning process. To achieve this objective, special care has been taken in designing the textbooks to achieve global standards.

As a part of the curricular reform, in order to ensure quality transaction of textbooks, handbooks are given to teachers with elaborate lesson plans for better pedagogical techniques. For the practice of the students, workbooks are given which will reinforce the learning in the classroom. Parental handbooks are prepared to impart awareness regarding the teaching-learning process to the parent community. QR codes are incorporated in the beginning of each lesson to enable learning outside the classroom.

In this textbook, eleven lessons have been incorporated on various themes like Family, Plants and Animals around us, Our body, Food, Water, Shelter, Travel, Relations, Games and Recreations etc. In order to reinforce the concepts, several projects and activities are given to inculcate scientific temperament. Questions are framed for each lesson to recapitulate the conceptual understanding and to achieve competencies required for project work, drawings and model makings. Each lesson is provided with eye catching illustrations to engage the children. The key concepts of the lessons are included under key words and the salient features of the lessons are given under the title "What we have learnt " for the review of the important concepts. An effort has been made to relate the scientific concepts with the real-life events thereby developing and promoting scientific temperament.

SCERT ANDHRA PRADESH

We are grateful to Honourable Chief Minister Sri.Y.S. Jagan Mohan Reddy for being our source of inspiration to carry out this extensive reform in the education department. We extend our gratitude to Dr.Adimulapu Suresh, Honourable Minister of Education for striving towards qualitative education. Our special thanks to Sri. Budithi Rajsekhar, IAS, Principal Secretary, School Education, Sri. Vadrevu Chinaveerabhadrudu, IAS, Commissioner, School Education, Ms. Vetriselvi.K, IAS, Special Officer for their constant motivation and guidance.

We convey our thanks to the textbook writers who studied curriculum from Chicago to Singapore and recommended best practices across the globe to reach global standards. Our heartfelt thanks to NCERT, SCERT of Kerala, Tamilnadu and Karnataka in designing the textbooks. We also thank our textbook writers, editors, artists and layout designers for their contribution in the development of this textbook. We invite constructive feedback from the teachers and parents in further refinement of the textbook.

Dr. B. Pratap Reddy
Director
SCERT – Andhra Pradesh

Instructions to the Teachers

- Children should understand and adjust with their environment. For this , they have to observe and explore their environment. Hence, the text book on Environmental studies at primary level is given the title 'Our World'
- The syllabus and lessons are written according to the context of our Andhra Pradesh State and the themes based on the learning outcomes of the National Council For Educational Research And Training (NCERT)
- The contents of the lessons are prepared on the themes family, plants and animals, food and water, where do we live, communication and transport, our traditions and cultures and our universe.
- There are eleven lessons under seven themes. Each lesson is enriched with colourful pictures to make children understand the concepts better.
- Every lesson starts with either a real life situation or child experiences. It give opportunity to hands on experience.
- Children are encouraged to talk about the concepts and their experiences in the classroom.
- Activities are designed in such a way that the children observe and explore their surroundings, discuss with their friends, family members, elders and collect the information, tabulate the data, do experiments, participate in activities and projects.
- This textbook focuses mainly on the processing skills. Hence whole classroom, groups or individual activities, logos and Q.R codes are also given to specify the different activities .The cat - logo poses a question for children to observe their surroundings and the practices to be followed. The bird logo comes up with certain suggestions and practices children can do . The bee logo proposes extended learning / Teaching learning process should be carried out with the help of proper teaching learning material. So they should prepare required TLM.
- Exercises are given not only to know what children have learnt, but also to exhibit and express their creativity, experiences and thoughts. So all children should be given a chance to participate in the activities.
- In each lesson there is an activity 'Let us do', to give scope for children to explore . Children should do these activities either individually or in a group.
- There is another activity by the title 'Think and Discuss.' A scope is provided for the children to think and discuss them with teachers or elders. Children should identify them independently. If 80% of the children can do this, then only the next lesson should be taken up .
- 'Key words' are given at the end of each lesson. These are the important concepts of the lesson. Children's conceptual understanding should he evaluated with the key words. Salient features of the lesson are given by the title 'What we have learnt'. Children should be made to read these features. These are given to review the concept.
- In each and every lesson, the activities are incorporated keeping in view the Continuous and Comprehensive Evaluation (C.C.E).
- Teacher should note down the progress of children based on the competencies achieved.

SCERT ANDHRA PRADESH

Our National Anthem

- Rabindranath Tagore

Jana-gana-mana-adhinayaka jaya he

Bharata-bhagya-vidhata

Panjaba-Sindhu-Gujarata-Maratha

Dravida-Utkala-Banga

Vindhya-Himachala-Yamuna-Ganga

uchchala-jaladhi-taranga

Tava Subha name jage, tave subha asisa mage,

gahe tava jaya-gatha.

Jana-gana-mangala-dayaka jaya he

Bharata-bhagya-vidhata.

Jaya he, Jaya he, Jaya he,

jaya jaya jaya jaya he.

Pledge

- Pydimarri Venkata Subba Rao

India is my country. All Indians are my brothers and sisters.

I love my country and I am proud of its rich and varied heritage.

I shall always strive to be worthy of it.

I shall give my parents, teachers and all elders respect,

and treat everyone with courtesy. I shall be kind to animals.

To my country and my people, I pledge my devotion.

In their well-being and prosperity alone lies my happiness.

Learning Outcomes - Academic Standards

The Learning outcomes - academic standards to be achieved through the Class - III Text book 'Our World' have been given below. These should be achieved by the end of the academic year. The Teaching-Learning process should be carried out with the inclusion of these standards. The following processing skills should be developed among the children.

1) **Conceptual Understanding :** Children should understand the different concepts ofthe 11 lessons of this text book. They should compare these with their real life experiences. They should be able to give examples, say similarities and differences, classify, explain and tell the reasons.

2) **Questioning:** Children should be able to question about the surroundings, situationsand incidents they have seen and observed.

3) **Doing and Explaining:** Children should be able to do smaller and simpler experimentsand explain the concepts. They should be able to tell the sequence of the steps of the experiment and the things that are used.

4) **Information Skills - Projects :** Children should grasp, note, tabulate and analyze thethings by observation, reading and discussing with others. They should be able to infer the analysis and do the generalization. They should participate actively in the projects. Projects should be exhibited and explained by them in the class.

5) **Drawing and Colouring:** Children should be able to explain the concepts by drawing and colouring the pictures and by making models.

6) **Appreciation:** Good attitudes should be developed among the children. They shouldrecognize and appreciate the greatness of animals, birds, plants and people of their society. The values like kindness, co-operation, working together etc; should be inculcated. They should be able to identify and appreciate the diversities of the surroundings and society. They should be able to appreciate different food habits, life styles, cultures and traditions. Personal hygiene, good food habits, doing the personal work by self, helping the elders and special needed people should be practised.

7) **Mapping Skills :** Pupils should be able to draw the maps of their class-room, school, street, village etc; they should be able to grasp the information by understanding the symbols given in the map.

SCERT ANDHRA PRADESH

Lesson 1

Rani's Happy Family

H3D5E8

Learning Outcomes

Pupils will be able to:

- speak about their family members and the work they do.
- share information about people in their village and their jobs.
- identify members living together in a family.
- understand the care given by family members.
- identify resemblances within family members.

SCERT ANDHRA PRADESH

It was Sunday. Razia came to Rani's house to play. Rani showed her photo album to Razia. Razia asked about the people in the pictures. Rani introduced the members of her family to Razia.

Rani : This is my family photo. This is my grandfather and grandmother in the centre. My father is standing to the left of my grandfather and my mother is standing to the right of my grandmother. That is my brother Chintu. This is my pet Tommy. Ours is a happy family.

Razia : Oh! Nice family.

Rani : What about your family?

Razia : In my family, we are three. My father Rasool, my mother Haseena and I.

We all live with our families. A family consists of grandfather, grandmother, father, mother, brothers and sisters. 'Brothers and sisters' are also called siblings.

Who lives with you in your family?

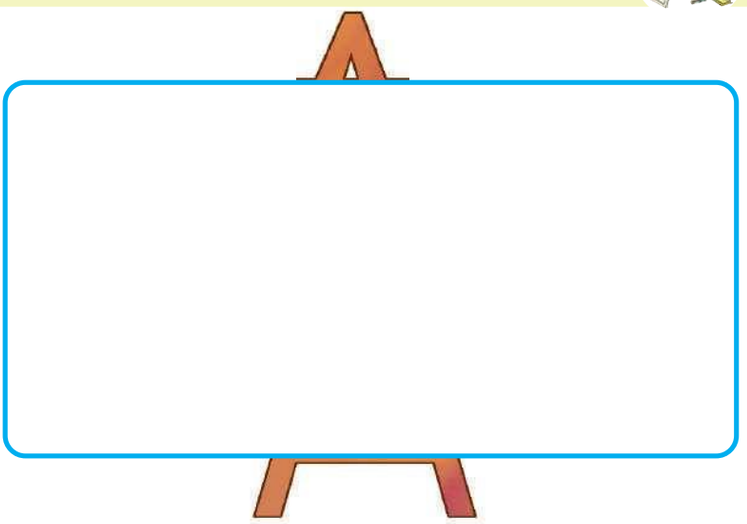

Fill in the blanks.

- My father's name is _____
- My mother's name is _____
- I have _____ siblings.
- There are _____ members in my family.

Draw your family picture using buttons and match sticks.

SCERT ANDHRA PRADESH

Role of family members

This is Geetha's house. Observe the picture given below and mention the work they are doing.

Geetha's mother is cooking. Her father is chopping wood. Her grandfather is watering the plants and her grandmother is drying the clothes. Geetha is getting water and her brother is sweeping.

Everyone in the family shares the work and help each other.

Who does the cooking and cleaning in your family?

- What does your father do?
- Do you help your family members?
- What kind of work do you do at home?
- Name the works that you and your family members do together.

SCERT ANDHRA PRADESH

Helping each other

The family members do different kinds of work. Work is shared by all the family members. Observe the pictures given below. Tell what the people in the pictures are doing.

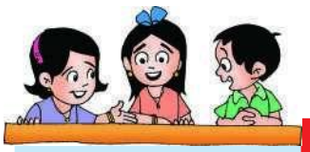

Do your family members help one another in doing household work?

Love and care of a family

Members of a family love and care for each other. We share our work and help one another in the household chores. Our elders love and take care of us, and we too love and respect them.

Think and Discuss

1) What kind of work is done by most of the mothers?
2) What kind of work is done by most of the fathers?
3) What kind of work is done by all family members together?

SCERT ANDHRA PRADESH
